

*"It was fascinating to look at all of these photographs. It was also very hard to cut it down. There was so much excellent work with a huge variety of images. And the approach to portraiture varied immensely. I wish I could have included a lot more. I have opted not to make one image over the others as my selection but instead have selected this group of images that make up the Portraits exhibition.*

*Congratulations to all of you."*

*Mary Ellen Mark*
